

# Manifesto for Sustainable Agile

As we continue to uncover better ways of working and delivering sustainable business outcomes, we have come to value:

<b>Collocated Minds</b>	<i>Over</i>	<b>Collocated People</b>
<b>Collective Outcomes</b>	<i>Over</i>	<b>Individual Outputs</b>
<b>Speed to Value</b>	<i>Over</i>	<b>Speed to Market</b>
<b>Empathy and Trust</b>	<i>Over</i>	<b>Command and Control</b>

That is, while there is value in the items on the right, we value the items on the left more.

**Manifesto for Sustainable Agile** is licensed under a [Creative Commons Attribution 4.0 International License](https://creativecommons.org/licenses/by-sa/4.0/).

The manifesto is originally conceived & drafted by Sandeep Joshi (@sandeepmvp | <http://www.sandeepmvp.com>) and signed & supported by agile community experts, practitioners and thought leaders around the world.
