

Manifesto for Sustainable Agile

As we continue to uncover better ways of working and delivering business outcomes, we have come to value:

<i>Collocated Minds</i>	Over	Collocated People
<i>Collective Outcomes</i>	Over	Individual Outputs
<i>Speed to Value</i>	Over	Speed to Market
<i>Empathy and Trust</i>	Over	Command and Control

That is, while there is value in the items on the right, we value the items on the left more.
